

What Our Customers are saying about ProBio 5

“The new probiotics are much improved.” (Former ThreeLac Customer)

“Congratulations for finding a pearl!”

“This particular brand of probiotics looks and feels very good. I like it, send me six.”

Candida Suffers Please Read My Testimonial!

I have had several surgeries and prolonged use of antibiotics. I had severe Candida yeast infection, weight gain, thrush, chronic fatigue, night sweats, could not sleep, rash, allergies, etc... I got on the latest greatest Threelac product started 5 years ago with 6 packets per day it was very expensive along with enzymes and flora which I needed also and I paid extra. It cost me several hundred dollars per month even at wholesale.

I was just introduced to PROBIO5 a few weeks ago and what a difference it has made to my health and energy. It is such a superior product and so much better than Threelac it is unbelievable. Probio5 taking 2 capsules compared to 6 of the Threelac. Probio5 also has the enzymes and flora included which cuts my cost to less than \$50 per month compared to hundreds.

Do me a favor and give it a try, you will not regret and will feel the difference within a few days for yeast infections, thrush and related symptoms.

Thanks, K.P. Washington, DC.

I love ProBio 5! I used to use Threelac for a chronic cough. I discovered that it made the coughing stop for up to three hours, but I had to use 3 or 4 packets of Threelac every day. Since using ProBio 5, the cough has stopped for the entire day, I have no Candida, and I look forward to the cough stopping completely. ProBio 5 has proven to be a much better product for me, and the cost is so much lower, and I use only 2 capsules a day. I used to use 3-4 packets of Threelac which cost \$130/month. ProBio 5 costs me over \$100 less

Thank you for ProBio 5, D.K. San Diego, CA

Thank You very much for the ProBio5. Amazing product. Since taking the product for 9 days now I noticed I no longer am having sugar cravings and also I use to wake up in the morning with brain fog and not being able to think clearly and since taking your product that has all cleared up and in just a short time the spit test you shared with me to verify I had Candida the spit did not get foggy and no more of the strings hanging from the spit like when I first did the test which was amazing to me how quickly your product worked.

As for the sugar cravings I use to get I can promise you this is working because without even thinking about using any will power my wife recently got a beautiful box of Godiva chocolate truffles and normally I would be all over those truffles but amazing as it may seem I opened the box looked at them and walk away without any craving. I just didn't even have a desire for eating one nor do I now have any desire or sugar cravings it just totally amazing. I really noticed the cravings for sugar was gone when we go out for dinner I would always like to have a bite or two of some type of dessert. No longer do I even look at a dessert menu or even ask. When the waiter asks if I would like to see the dessert menu I joke with them and say no thanks I'm on Jenny Craig and that gets a big chuckle from them.

But seriously I was amazed at how fast your product works and how I do not have any sugar cravings and the brain fog is completely gone. Good Job! Thank You! As for the brain fog you don't realize how good it is to not have that until you tried your product and realize you can see and think clearly now. The only side affect I did notice was a few days of taking the product I had a slight headache but only minor and I figured that must be from the cleansing action of the ProBio5. Good Luck with this wonderful product and if you have anyone who would like me to share my experience with ProBio5 feel free to have them contact me.

Sincerely, Bill F Portland, Oregon

I love ProBio 5! It gave me an unexpected benefit with my asthma! I thought I was breathing well and had my asthma totally under control. When I started taking ProBio 5 to my surprise, I began to notice that I was able to breathe more deeply than I'd ever experienced. I love this product!
