Ultimate Cod Liver Oil Capsules

Finest quality cod liver oil – naturally enriched for higher levels of DHA, EPA and vitamin D, in capsule form

Cod liver oil has been traditionally used for generations in both North America and Europe for its overall 'goodness' and as a natural source of vitamins A and D. Recently, it has become apparent that many of the benefits in cod liver oil, which provided its 'goodness', are due to the omega-3 fatty acids EPA and DHA.

Many practitioners and patients alike still prefer to use traditional cod liver oil because, not being concentrated by molecular ethyl ester formation and molecular distillation, it retains all of the natural quality of the crude oil.

However, the natural concentration of DHA and EPA in cod liver oil is lower than with fish oil derived from species such as sardine, anchovy and tuna, and this has led to a rise in the popularity of these other types of fish oil. In addition, these types of oil are often added to cod liver oil to boost the EPA and DHA levels.

Ultimate Cod Liver Oil Capsules from Pharmax are revolutionary in providing a pure cod liver oil, within a fish gelatin capsule, that is naturally enriched for DHA and EPA without any molecular distillation and without any addition of other fish oils. We start by taking our

own Finest Pure Cod Liver Oil then, by using the unique Cryo-3 process of fractional super-cooling, the triglycerides containing shorter chain saturated fatty acids of the cod liver oil are 'frozen off' and separated, leaving the resultant oil enriched in the unsaturated DHA and EPA.

Finally, we have added to the naturally enriched level of vitamin D to provide a standardized high level of 800iu per softgel capsule (200% RDA) and produce, in our opinion, the ultimate cod liver oil in softgel form.

- *Pure natural cod liver oil from Arctic cod*
- *Naturally enriched to provide approximately 33% more DHA and EPA than standard cod liver oil*
- *180mg DHA and 165mg EPA in each fish gelatin capsule*
- *Lower in saturated fatty acids*
- *Naturally enriched vitamin D standardized at 200% RDA in each softgel capsule*
- *Independently tested for PCB's, dioxins, and furans, PAH's and the absence of detectable levels of mercury and other heavy metals*
- *No fish taste or odor*

Ultimate Cod Liver Oil Capsules

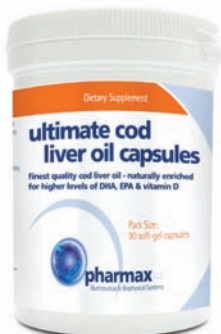

Naturally enriched, virtually tasteless pure cod liver oil providing 33% more DHA and EPA than other high quality standard cod liver oils, and high levels of vitamin D.

Recommended Intake:

1- 4 softgel capsules taken daily with meals or as professionally directed

Storage:

Refrigerate after opening and use within 3 months of opening.

Supplement Facts

Serving size: 1 softgel capsule
Servings per container: 90

	Amount per serving	%DV
Pure Cod Liver Oil containing:		
Docosahexaenoic acid (DHA)	180mg	†
Eicosapentaenoic acid (EPA)	165mg	†
Total omega-3	385mg	†
Vitamin A	2667iu	50%
Vitamin D	800iu	200%
Natural mixed tocopherols	5mg	†

% Daily Values (DV) are based on a 2,000 calorie diet

† Daily Values (DV) not established

Other ingredients: Capsule: fish gelatin, glycerol, copper chlorophyll
